HERRON-ZIMMERS MOULDING COMPANY, DETROIT

DECORATIVE MOULDINGS OF METAL

HerZim metal mouldings provide a permanent, practical trim, with new beauty, flash and color in tune with modern architectural and decorative trends. In this catalog we have selected but a few of the hundreds of mouldings available, choosing the mouldings that have proven most popular with the architect and builder.

HerZim mouldings are so designed that installation is simple and application costs low.

Samples of sections in which you are interested will be furnished on request, and we shall be happy to discuss with you any matters pertaining to the use of metal mouldings for any purpose.

WALLBOARD MOULDINGS OF STAINLESS STEEL

All sections below are also available in chrome zinc.

HERZIM ALUMINUM FINISH MOULDING WITH FILLER INSERTS

Provides a beautiful finish, with colored inserts that harmonize with decorative treatment. Easily applied, on old or new construction after other work is completed, by nailing in place and inserting filler which covers nails and adds a gay touch of color. Standard lengths of 12 feet.

637, 7/8" wide

**Flexible
HerZim Filler**

Available in a wide variety of colors, in rolls of 50, 100, 300 and 500 feet. In ordering, specify color and moulding section with which it is to be used.

3554, 2 3/8" wide

HERZIM BEAD INSERT MOULDINGS

A delightful new treatment, with striped beading inserts in various colors and color combinations. Inserts are quickly applied after mouldings are nailed in place. In standard lengths of 12 feet.

3679, 1" wide, 3 bead

HERZIM LINOLEUM INSERT MOULDINGS

Linoleum inserts, in matching or contrasting colors, applied after moulding has been screwed or nailed in place. Ideal for table, sink board and counter nosing. In standard 12 foot lengths.

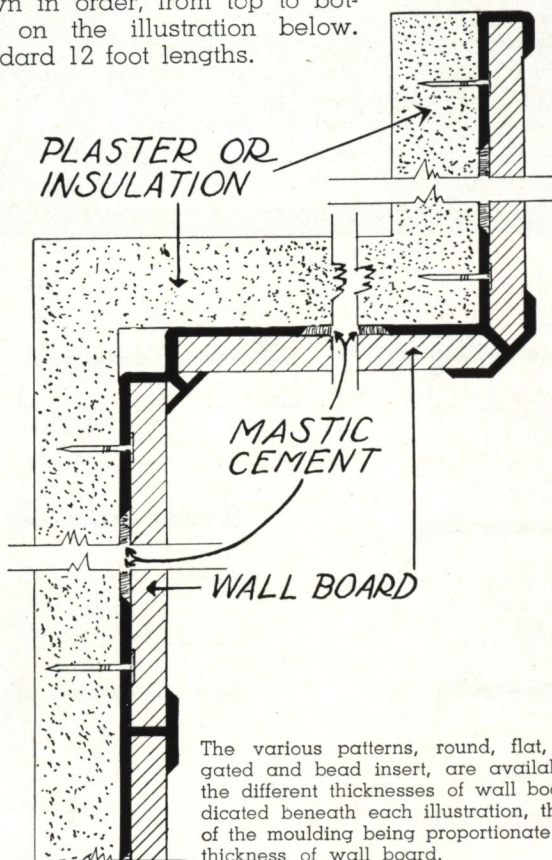

3686, 1 1/8" wide

WALL BOARD MOULDINGS IN ALUMINUM

The extensive use of the many types of wall board and wall tile, both for new construction and modernization, has created a heavy demand for mouldings that simplify application and add beauty. The HerZim line meets these requirements fully, with matched sets of cap, outside corner, inside corner and divider strip, shown in order, from top to bottom, on the illustration below. Standard 12 foot lengths.

Round Pattern

3658 Outside corner for $\frac{3}{8}$ " wallboard.

Wallboard Thickness	Outside	Inside	Divider	Cap
$\frac{1}{8}$ "	3331	3347	3346	3348
$\frac{1}{8}$ "	3670	3669	3668	3667
$\frac{3}{8}$ "	3658	3659	3541	3540
$\frac{1}{4}$ "	3657	3530	3538	3529
$\frac{3}{4}$ "	3812

Flat Pattern

3635 Outside corner for $\frac{3}{8}$ " wallboard.

Wallboard Thickness	Outside	Inside	Divider	Cap
$\frac{1}{8}$ "	3627	3626	3629	3628
$\frac{1}{4}$ "	3631	3630	3632	3633
$\frac{3}{8}$ "	3635	3634	3637	3636
$\frac{1}{2}$ "	3639	3638	3641	3640

Corrugated Pattern

3335 Outside corner for $\frac{3}{8}$ " wallboard.

Wallboard Thickness	Outside	Inside	Divider	Cap
$\frac{3}{8}$ "	3335	3333	3334	3332

Bead Insert Pattern

3690 Bead insert divider strip for $\frac{1}{8}$ " wallboard.

Wallboard Thickness	Outside	Inside	Divider	Cap
$\frac{1}{8}$ "	3711	3712	3690	3713
